

Park and Walk summer games.

I spy.....Nature!

Spot as many of the following things as you can on your way to the Ark. All children get a bag of sweets on arrival for joining in. If you don't spot everything you can always try again next time!

1) A Lime tree.

You won't find any limes on these trees but you can make tea from their flowers!

2) A butter cup.

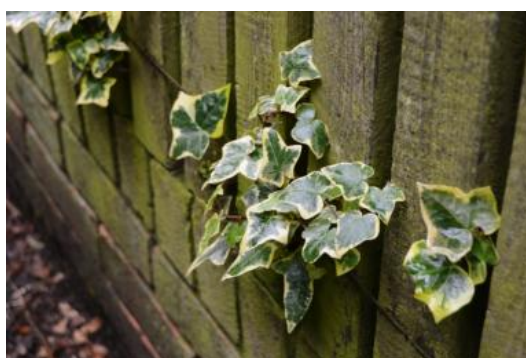

On a sunny day, hold a butter cup under your chin to see if you like butter!

3) A vegetable patch.

What would you grow if you had a vegetable patch?

4) Some Ivy.

Many birds like Blue tits and Tree creepers like to forage and roost in Ivy.

5) Buddleia Flowers

Look out for butterflies, they often like to feed on Buddleia!
